MEMORANDUM FOR THE DIRECTOR

1. I am supposed to check into the hospital on Monday morning, the 18th, to determine what, if any, further treatment may be required. I anticipate being returned to full duty as of Monday although my present disposition is such that I may not be fully operational for a ten or twelve-hour day every day. Regardless, I will attempt to retain most of the meanness I presently feel, as I consider this a decided asset for the future.

2. In order to break in slowly, I would propose taking the Gulf Stream to Los Angeles on Thursday, 21 March, presenting the decorations to the detachment at Edwards on the morning of 22 March, [redacted] and then laying over in Colorado Springs on the 23rd and 24th.

3. This is just an idea and if it has no merit from your viewpoint, can be easily scratched.
